

Dan-Mop® Quick Velcro Antibac, microfibre mop, 40 cm

SKU: 3027

Dan-Mop® Quick Antibac in microfibre is ideal for dry, damp and wet mopping. Can be used on all surfaces. The antibacterial properties of the mop ensure that 99.9% of bacteria retained within the mop are destroyed within a few hours. The fringe is useful for uneven surfaces and adds extra moisture while cleaning, meanwhile the centre part of the mop provides an in depth cleaning thus removing stains, stuck dirt etc.

- 99.9% of all bacteria within the mop are killed due to the antibacterial properties
- Can be used dry, damp or wet
- Can be washed at least 300 times
- Fits Dan-Mop® frames item no. 2590 and 2737
