

Dan-Mop® Curve Twin Technic, double-sided all-purpose mop, 35 cm, bag of 5

SKU: 12033

Dan-Mop® Curve Twin Technic is a double-sided microfibre mop for everyday cleaning. Because it has two sides the mop does not need to be re-dampened quite as often compared to a regular single-sided mop. Alternatively, each side can be used for different tasks: for instance, use one side for washing the floor and the other side for mopping up excess water. It has a low level of friction. The fringes are also suitable for uneven surfaces and assure that the mop can get right into the corners.

- Double-sided
- Low friction
- Can be used damp or wet
- Can be washed at least 400 times
- Fits frame item no. 10097

Specifications

Category	Mops
System	Pocket
