

# Safety Data Sheet

According to Regulation (EC) No 1907/2006

# Suma Crystal Pur-Eco A8

Revision: 2024-12-06

Version: 02.0

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Trade name: Suma Crystal Pur-Eco A8

UFI: K35J-018V-700E-N9NS

# 1.2 Relevant identified uses of the substance or mixture and uses advised against Product use: Dish washing rinse aid.

For professional use only. Uses other than those identified are not recommended.

Uses advised against:

SWED - Sector-specific worker exposure description : AISE\_SWED\_PW\_8b\_2 AISE\_SWED\_PW\_1\_1 AISE\_SWED\_PW\_4\_1

#### 1.3 Details of the supplier of the safety data sheet

Diversey Europe Operations BV, De Corridor 4, 3621ZB Breukelen [Maarssenbroeksedijk 2, 3542DN Utrecht], The Netherlands

#### Contact details

Diversey Danmark ApS Frydenlundsvej 30, Bygning H 1. sal, 2950 Vedbæk, Tel: 70 10 41 14 E-mail: ordre.dk@solenis.com

#### 1.4 Emergency telephone number

Kontakt læge eller skadestue - medbring etiket eller dette sikkerhedsdatablad. Giftlinjen, telefon 82 12 12 12, kan kontaktes i tilfælde af indtagelse eller forgiftning.

# **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Eye irritation, Category 2 (H319)

## 2.2 Label elements

Signal word: Warning.

#### Hazard statements:

H319 - Causes serious eye irritation.

# 2.3 Other hazards

No other hazards known.

# **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

| Ingredient(s)            | EC number | CAS number  | REACH<br>number | Classification  | Notes | Weight<br>percent |
|--------------------------|-----------|-------------|-----------------|---|-------|-------------------|
| Citric acid              | 201-069-1 | -           |                 | Specific target organ toxicity - Single exposure,<br>Category 3 (H335)<br>Eye irritation, Category 2 (H319) |       | 10-20             |
| alkyl alcohol alkoxylate | [4]       | 9038-95-3   | [4]             | Acute toxicity - Oral, Category 4 (H302)  |       | 10-20             |
| alkyl alcohol alkoxylate | [4]       | 111905-53-4 |                 | Acute toxicity - Oral, Category 4 (H302)<br>Eye irritation, Category 2 (H319)                               |       | 3-10              |

|                         |           |            |              | Chronic aquatic toxicity, Category 3 (H412) |     |
|-------------------------|-----------|------------|--------------|---|-----|
| sodium cumenesulphonate | 239-854-6 | 15763-76-5 | 01-211948941 | Eye irritation, Category 2 (H319)           | 1-3 |
|                         |           |            | 1-37         |   |     |

Workplace exposure limit(s), if available, are listed in subsection 8.1.

ATE, if available, are listed in section 11.

[1] Exempted: ionic mixture. See Regulation (EC) No 1907/2006, Annex V, paragraph 3 and 4. This salt is potentially present, based on calculation, and included for classification and labelling purposes only. Each starting material of the ionic mixture is registered, as required. [4] Exempted: polymer. See Article 2(9) of Regulation (EC) No 1907/2006.

For the full text of the H and EUH phrases mentioned in this Section, see Section 16..

# SECTION 4: First aid measures

| 4.1 Description of first aid measures |   |
|---------------------------------------|---|
| Inhalation:                           | Get medical attention or advice if you feel unwell.   |
| Skin contact:                         | Wash skin with plenty of lukewarm, gently flowing water. If skin irritation occurs: Get medical advice or attention.  |
| Eye contact:                          | Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes. Rinse<br>cautiously with water for several minutes. Remove contact lenses, if present and easy to do.<br>Continue rinsing. If irritation occurs and persists, get medical attention. |
| Ingestion:                            | Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious person. Get medical attention or advice if you feel unwell.   |
| Self-protection of first aider:       | Consider personal protective equipment as indicated in subsection 8.2.  |
| 4.2 Most important symptoms and ef    | fects, both acute and delayed   |
| Inhalation:                           | No known effects or symptoms in normal use.   |
| Skin contact:                         | No known effects or symptoms in normal use.   |

## 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

No known effects or symptoms in normal use.

# SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

Eye contact:

Ingestion:

Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam.

Causes severe irritation.

#### 5.2 Special hazards arising from the substance or mixture

No special hazards known.

#### 5.3 Advice for firefighters

As in any fire, wear self contained breathing apparatus and suitable protective clothing including gloves and eye/face protection.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

Wear eye/face protection.

### 6.2 Environmental precautions

Dilute with plenty of water. Do not allow to enter drainage system, surface or ground water.

#### 6.3 Methods and material for containment and cleaning up

Dyke to collect large liquid spills. Absorb with liquid-binding material (sand, diatomite, universal binders). Do not place spilled materials back into the original container. Collect in closed and suitable containers for disposal.

#### 6.4 Reference to other sections

For personal protective equipment see subsection 8.2. For disposal considerations see section 13.

# SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Measures to prevent fire and explosions:

No special precautions required.

## Measures required to protect the environment:

For environmental exposure controls see subsection 8.2.

#### Advice on general occupational hygiene:

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not mix with

other products unless advised by Diversey. Wash hands before breaks and at the end of workday. Avoid contact with eyes. Use only with adequate ventilation. See chapter 8.2, Exposure controls / Personal protection.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local and national regulations. Store in a closed container. Keep only in original packaging. For conditions to avoid see subsection 10.4. For incompatible materials see subsection 10.5.

### 7.3 Specific end use(s)

No specific advice for end use available.

# SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters Workplace exposure limits

Air limit values, if available:

Biological limit values, if available:

### Recommended monitoring procedures, if available:

Additional exposure limits under the conditions of use, if available:

#### **DNEL/DMEL and PNEC values**

Human exposure

DNEL/DMEL oral exposure - Consumer (mg/kg bw)

| Ingredient(s)            | Short term - Local<br>effects | Short term - Systemic<br>effects | Long term - Local<br>effects | Long term - Systemic<br>effects |
|--------------------------|-------------------------------|----------------------------------|------------------------------|---------------------------------|
| Citric acid              | -                             | -                                | -                            | -                               |

#### 8.2 Exposure controls

The following information applies for the uses indicated in subsection 1.2 of the Safety Data Sheet. If available, please refer to the product information sheet for application and handling instructions. Normal use conditions are assumed for this section.

Recommended safety measures for handling the <u>undiluted</u> product:

Appropriate engineering controls: Appropriate organisational controls:

No special requirements under normal use conditions. Avoid direct contact and/or splashes where possible. Train personnel.

#### REACH use scenarios considered for the undiluted product:

|                                 | SWED - Sector-specific<br>worker exposure<br>description | LCS | PROC    | Duration<br>(min) | ERC   |
|---------------------------------|--|-----|---------|-------------------|-------|
| Automatic transfer and dilution | AISE_SWED_PW_8b_2  | PW  | PROC 8b | 60                | ERC8b |

#### Personal protective equipment

| Eye / face protection:  | Safety glasses are not normally required. However, their use is recommended in those cases where |
|-------------------------|--|
|                         | splashes may occur when handling the product (EN 16321).   |
| Hand protection:        | No special requirements under normal use conditions.   |
| Body protection:        | No special requirements under normal use conditions.   |
| Respiratory protection: | No special requirements under normal use conditions.   |
|                         |  |

No special requirements under normal use conditions.

**Environmental exposure controls:** 

Recommended safety measures for handling the <u>diluted</u> product:

Recommended maximum concentration (% w/w): 0.05

Appropriate engineering controls: No special requirements under normal use conditions. Appropriate organisational controls: No special requirements under normal use conditions.

#### **REACH** use scenarios considered for the diluted product:

|  | SWED             | LCS | PROC   | Duration<br>(min) | ERC   |
|--|------------------|-----|--------|-------------------|-------|
| Automatic application in a dedicated closed system | AISE_SWED_PW_1_1 | PW  | PROC 1 | 480               | ERC8a |
| Automatic application in a dedicated system        | AISE_SWED_PW_4_1 | PW  | PROC 4 | 480               | ERC8a |

Personal protective equipment Eye / face protection: Hand protection: Body protection: Respiratory protection:

No special requirements under normal use conditions. No special requirements under normal use conditions. No special requirements under normal use conditions. No special requirements under normal use conditions.

Environmental exposure controls:

No special requirements under normal use conditions.

# **SECTION 9: Physical and chemical properties**

9.1 Information on basic physical and chemical properties

Information in this section refers to the product, unless it is specifically stated that substance data is listed

Physical state: Liquid Colour: Clear , Green

#### Method / remark

#### Odour: Product specific Odour threshold: Not applicable Melting point/freezing point (°C): Not determined Initial boiling point and boiling range (°C): Not determined

Not relevant to classification of this product See substance data

Substance data, boiling point

| Ingredient(s)            | Value<br>(°C)     | Method | Atmospheric pressure<br>(hPa) |
|--------------------------|-------------------|--------|-------------------------------|
| Citric acid              | No data available |        |                               |
| alkyl alcohol alkoxylate | No data available |        |                               |
| alkyl alcohol alkoxylate | No data available |        |                               |
| sodium cumenesulphonate  | No data available |        |                               |

Flammability (solid, gas): Not applicable to liquids Flammability (liquid): Not flammable. Flash point (°C): Not determined Sustained combustion: Not applicable. (UN Manual of Tests and Criteria, section 32, L.2) Lower and upper explosion limit/flammability limit (%): Not determined

Substance data, flammability or explosive limits, if available:

|  | Method / remark |
|--|-----------------|
| Autoignition temperature: Not determined               |                 |
| Decomposition temperature: Not applicable.             |                 |
| <b>pH:</b> =< 2 (neat)                                 | ISO 4316        |
| <b>Dilution pH:</b> $\approx$ 3 (0.05 %)               | ISO 4316        |
| Kinematic viscosity: Not determined                    |                 |
| Solubility in / Miscibility with water: Fully miscible |                 |

Substance data, solubility in water

| alkyl alcohol alkoxylate | < 10              | Method not given | 20                  |
| alkyl alcohol alkoxylate | No data available |                  |                     |
| sodium cumenesulphonate  | No data available |                  |                     |

Relative density: ≈ 1.08 (20 °C) Relative vapour density: No data available. Particle characteristics: No data available.

9.2 Other information
9.2.1 Information with regard to physical hazard classes
Explosive properties: Not explosive.
Oxidising properties: Not oxidising.
Corrosion to metals: Not corrosive

**9.2.2 Other safety characteristics** No other relevant information available.

# SECTION 10: Stability and reactivity

#### 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

# Method / remark

OECD 109 (EU A.3) Not relevant to classification of this product Not applicable to liquids.

### 10.2 Chemical stability

Stable under normal storage and use conditions.

#### 10.3 Possibility of hazardous reactions

No hazardous reactions known under normal storage and use conditions.

#### 10.4 Conditions to avoid

None known under normal storage and use conditions.

# 10.5 Incompatible materials

Keep away from products containing chlorine-based bleaching agents or sulphites.

#### **10.6 Hazardous decomposition products**

None known under normal storage and use conditions.

# **SECTION 11: Toxicological information**

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Mixture data:

#### Relevant calculated ATE(s):

ATE - Oral (mg/kg): >2000

Substance data, where relevant and available, are listed below:.

#### Acute toxicity Acute oral toxicity

| Ingredient(s)            | Endpoint | Value<br>(mg/kg) | Species | Method                 | Exposure<br>time (h) | ATE Oral<br>(mg/kg) |
|--------------------------|----------|------------------|---------|------------------------|----------------------|---------------------|
| Citric acid              | LD 50    | 5400-11700       | Rat     | Method not given       |                      | Not established     |
| alkyl alcohol alkoxylate | LD 50    | > 300-2000       | Rat     | OECD 423 (EU B.1 tris) |                      | Not established     |
| alkyl alcohol alkoxylate | LD 50    | ≥ 300-2000       | Rat     | Method not given       |                      | Not established     |
| sodium cumenesulphonate  | LD 50    | > 7000           | Rat     | Method not given       |                      | Not established     |

Acute dermal toxicity

| Ingredient(s)            | Endpoint | Value     | Species | Method           | Exposure | ATE Dermal      |

#### Irritation and corrosivity

Skin irritation and corrosivity

# Suma Crystal Pur-Eco A8

| Ingredient(s)            | Result        | Species | Method            | Exposure time |
|--------------------------|---------------|---------|-------------------|---------------|
| Citric acid              | Not irritant  | Rabbit  | OECD 404 (EU B.4) |               |
| alkyl alcohol alkoxylate | Not irritant  | Rabbit  | OECD 404 (EU B.4) |               |
|                          |               |         | Read across       |               |
| alkyl alcohol alkoxylate | Mild irritant | Rabbit  | OECD 404 (EU B.4) |               |
| sodium cumenesulphonate  | Not irritant  | Rabbit  | OECD 404 (EU B.4) |               |

Eye irritation and corrosivity

| Ingredient(s)            | Result           | Species | Method            | Exposure time |
|--------------------------|------------------|---------|-------------------|---------------|
| Citric acid              | Severe damage    | Rabbit  | OECD 405 (EU B.5) |               |
|                          | Irritant         |         |                   |               |
| alkyl alcohol alkoxylate | Not corrosive or | Rabbit  | OECD 405 (EU B.5) |               |
|                          | irritant         |         | Read across       |               |
| alkyl alcohol alkoxylate | Irritant         | Rabbit  | OECD 405 (EU B.5) |               |
| sodium cumenesulphonate  | Irritant         | Rabbit  | OECD 405 (EU B.5) |               |

Respiratory tract irritation and corrosivity

| Ingredient(s)            | Result            | Species | Method | Exposure time |
|--------------------------|-------------------|---------|--------|---------------|
| Citric acid              | No data available |         |        |               |
| alkyl alcohol alkoxylate | No data available |         |        |               |
| alkyl alcohol alkoxylate | No data available |         |        |               |
| sodium cumenesulphonate  | No data available |         |        |               |

# Sensitisation

| Sensitisation by skin contact Ingredient(s) | Result            | Species    | Method                      | Exposure time (h) |
|---|-------------------|------------|-----------------------------|-------------------|
| Citric acid                                 | Not sensitising   | Guinea pig | Method not given            |                   |
| alkyl alcohol alkoxylate                    | No data available |            |                             |                   |
| alkyl alcohol alkoxylate                    | No data available |            |                             |                   |
| sodium cumenesulphonate                     | Not sensitising   | Guinea pig | OECD 406 (EU B.6) /<br>GPMT |                   |

Sensitisation by inhalation

| Ingredient(s)            | Result            | Species | Method | Exposure time |
|--------------------------|-------------------|---------|--------|---------------|
| Citric acid              | No data available |         |        |               |
| alkyl alcohol alkoxylate | No data available |         |        |               |
| alkyl alcohol alkoxylate | No data available |         |        |               |
| sodium cumenesulphonate  | No data available |         |        |               |

# CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction) Mutagenicity

| Ingredient(s)            | Result (in-vitro)                                   | Method<br>(in-vitro) | Result (in-vivo)                                    | Method<br>(in-vivo)   |
|--------------------------|---|----------------------|---|-----------------------|
| Citric acid              | No data available                                   |                      | No evidence of genotoxicity, negative test results  | Method not<br>given   |
| alkyl alcohol alkoxylate | No data available                                   |                      | No data available                                   |                       |
| alkyl alcohol alkoxylate | No data available                                   |                      | No data available                                   |                       |
| sodium cumenesulphonate  | No evidence for mutagenicity, negative test results |                      | No evidence for mutagenicity, negative test results | OECD 474 (EU<br>B.12) |

Carcinogenicity

| Ingredient(s)            | Effect   |
|--------------------------|--|
| Citric acid              | No evidence for carcinogenicity, negative test results |
| alkyl alcohol alkoxylate | No data available                                      |
| alkyl alcohol alkoxylate | No data available                                      |
| sodium cumenesulphonate  | No evidence for carcinogenicity, negative test results |

#### Toxicity for reproduction

| Ingredient(s)              | Endpoint | Specific effect     | Value<br>(mg/kg bw/d) | Species | Method                | Exposure<br>time | Remarks and other effects<br>reported               |

#### STOT-single exposure

| Ingredient(s)            | Affected organ(s) |
|--------------------------|-------------------|
| Citric acid              | No data available |
| alkyl alcohol alkoxylate | No data available |
| alkyl alcohol alkoxylate | No data available |
| sodium cumenesulphonate  | Not applicable    |

#### STOT-repeated exposure

| Ingredient(s)            | Affected organ(s) |
|--------------------------|-------------------|
| Citric acid              | No data available |
| alkyl alcohol alkoxylate | No data available |
| alkyl alcohol alkoxylate | No data available |
| sodium cumenesulphonate  | Not applicable    |

#### Aspiration hazard

Substances with an aspiration hazard (H304), if any, are listed in section 3.

# Potential adverse health effects and symptoms

Effects and symptoms related to the product, if any, are listed in subsection 4.2.

#### 11.2 Information on other hazards

**11.2.1 Endocrine disrupting properties** Endocrine disrupting properties - Human data, if available:

# 11.2.2 Other information

No other relevant information available.

# **SECTION 12: Ecological information**

# 12.1 Toxicity

No data is available on the mixture .

Substance data, where relevant and available, are listed below:

#### Aquatic short-term toxicity Aquatic short-term toxicity - fish

| Ingredient(s)            | Endpoint | Value<br>(mg/l) | Species              | Method             | Exposure<br>time (h) |
|--------------------------|----------|-----------------|----------------------|--------------------|----------------------|
| Citric acid              | LC 50    | 440             | Leuciscus idus       | Method not given   | 48                   |

### Aquatic toxicity to other aquatic benthic organisms, including sediment-dwelling organisms, if available:

| Ingredient(s)            | Endpoint | Value<br>(mg/kg dw<br>sediment) | Species | Method | Exposure<br>time (days) | Effects observed |
|--------------------------|----------|---------------------------------|---------|--------|-------------------------|------------------|
| Citric acid              |          | No data<br>available            |         |        |                         |                  |
| alkyl alcohol alkoxylate |          | No data<br>available            |         |        |                         |                  |
| alkyl alcohol alkoxylate |          | No data<br>available            |         |        |                         |                  |
| sodium cumenesulphonate  |          | No data<br>available            |         |        |                         |                  |

Terrestrial toxicity Terrestrial toxicity - soil invertebrates, including earthworms, if available:

| Ingredient(s) | Endpoint | Value<br>(mg/kg dw<br>soil) | Species | Method | Exposure<br>time (days) | Effects observed |
|---------------|----------|-----------------------------|---------|--------|-------------------------|------------------|
| Citric acid   |          | No data                     |         |        |                         |                  |
|               |          | available                   |         |        |                         |                  |

Terrestrial toxicity - plants, if available:

|   | Ingredient(s) | Endpoint | Value<br>(mg/kg dw<br>soil) | Species | Method | Exposure<br>time (days) | Effects observed |
|---|---------------|----------|-----------------------------|---------|--------|-------------------------|------------------|
| ľ | Citric acid   |          | No data                     |         |        |                         |                  |
|   |               |          | available                   |         |        |                         |                  |

Terrestrial toxicity - birds, if available:

| Ingredient(s) | Endpoint | Value                | Species | Method | Exposure<br>time (days) | Effects observed |
|---------------|----------|----------------------|---------|--------|-------------------------|------------------|
| Citric acid   |          | No data<br>available |         |        |                         |                  |

Terrestrial toxicity - beneficial insects, if available:

| Ingredient(s) | Endpoint | Value<br>(mg/kg dw<br>soil) | Species | Method | Exposure<br>time (days) | Effects observed |
|---------------|----------|-----------------------------|---------|--------|-------------------------|------------------|
| Citric acid   |          | No data<br>available        |         |        |                         |                  |

Terrestrial toxicity - soil bacteria, if available:

| Ingredient(s) | Endpoint | Value<br>(mg/kg dw<br>soil) | Species | Method | Exposure<br>time (days) | Effects observed |
|---------------|----------|-----------------------------|---------|--------|-------------------------|------------------|
| Citric acid   |          | No data<br>available        |         |        |                         |                  |

### 12.2 Persistence and degradability

Abiotic degradation Abiotic degradation - pho nhot

| Abiotic degradation - photodegradation in air, if available: |                   |        |            |        |  |  |  |
|--|-------------------|--------|------------|--------|--|--|--|
| Ingredient(s)  | Half-life time    | Method | Evaluation | Remark |  |  |  |
| Citric acid  | No data available |        |            |        |  |  |  |

Abiotic degradation - hydrolysis, if available:

| Ingredient(s) | Half-life time in fresh<br>water | Method | Evaluation | Remark |
|---------------|----------------------------------|--------|------------|--------|
| Citric acid   | No data available                |        |            |        |

Abiotic degradation - other processes, if available:

| Ingredient(s) | Туре | Half-life time    | Method | Evaluation | Remark |
|---------------|------|-------------------|--------|------------|--------|
| Citric acid   |      | No data available |        |            |        |

Biodegradation Ready biodegradability - aerobic conditions

| Ingredient(s)            | Inoculum                    | Analytical<br>method       | DT 50                      | Method                        | Evaluation            |
|--------------------------|-----------------------------|----------------------------|----------------------------|-------------------------------|-----------------------|
| Citric acid              |                             |                            | 97 % in 28 day(s)          | Method not given<br>OECD 301B | Readily biodegradable |
| alkyl alcohol alkoxylate | Activated sludge,<br>aerobe | BOD removal                | > 60% in 28 day(s)         | OECD 301F                     | Readily biodegradable |
| alkyl alcohol alkoxylate | Activated sludge,<br>aerobe | CO <sub>2</sub> production | > 60 % in 28<br>day(s)     | OECD 301B                     | Readily biodegradable |
| sodium cumenesulphonate  |                             | CO <sub>2</sub> production | 103 - 109% in 28<br>day(s) | OECD 301B                     | Readily biodegradable |

#### Ready biodegradability - anaerobic and marine conditions, if available:

| Ingredient(s) | Medium & Type | Analytical<br>method | DT 50 | Method | Evaluation        |
|---------------|---------------|----------------------|-------|--------|-------------------|
| Citric acid   |               |                      |       |        | No data available |

#### Degradation in relevant environmental compartments, if available:

| Ingredient(s) | Medium & Type | Analytical<br>method | DT 50 | Method | Evaluation        |
|---------------|---------------|----------------------|-------|--------|-------------------|
| Citric acid   |               |                      |       |        | No data available |

#### 12.3 Bioaccumulative potential oa Kow)

| annion coenicient n-octanol/water (log r | (011)             |                  |                             |        |
|--|-------------------|------------------|-----------------------------|--------|
| Ingredient(s)                            | Value             | Method           | Evaluation                  | Remark |
| Citric acid                              | -1.72             |                  | No bioaccumulation expected |        |
| alkyl alcohol alkoxylate                 | -                 |                  | No bioaccumulation expected |        |
| alkyl alcohol alkoxylate                 | No data available |                  |                             |        |
| sodium cumenesulphonate                  | -1.1              | Method not given | No bioaccumulation expected |        |

#### Bioconcentration factor (BCF)

| Ingredient(s)              | Value             | Species | Method | Evaluation | Remark |
|----------------------------|-------------------|---------|--------|------------|--------|
| Citric acid                | No data available |         |        |            |        |
| alkyl alcohol alkoxylate   | No data available |         |        |            |        |
| alkyl alcohol alkoxylate   | No data available |         |        |            |        |
| sodium<br>cumenesulphonate | No data available |         |        |            |        |

#### 12.4 Mobility in soil

Adsorption/Desorption to soil or sediment

| Ingredient(s)            | Adsorption<br>coefficient<br>Log Koc | Desorption<br>coefficient<br>Log Koc(des) | Method | Soil/sediment<br>type | Evaluation                                       |
|--------------------------|--------------------------------------|---|--------|-----------------------|--|
| Citric acid              | No data available                    |   |        |                       | Potential for mobility in soil, soluble in water |
| alkyl alcohol alkoxylate | No data available                    |   |        |                       |  |
| alkyl alcohol alkoxylate | No data available                    |   |        |                       |  |
| sodium cumenesulphonate  | No data available                    |   |        |                       |  |

### 12.5 Results of PBT and vPvB assessment

Substances that fulfill the criteria for PBT/vPvB, if any, are listed in section 3.

#### 12.6 Endocrine disrupting properties

Endocrine disrupting properties - Environmental effects, if available:

#### 12.7 Other adverse effects

No other adverse effects known.

# SECTION 13: Disposal considerations

# 13.1 Waste treatment methods

Waste from residues / unused products:

The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging material is suitable for energy recovery or recycling in line with local legislation.

Empty packaging Recommendation: Suitable cleaning agents:

Dispose of observing national or local regulations. Water, if necessary with cleaning agent.

# SECTION 14: Transport information

Land transport (ADR/RID), Sea transport (IMDG), Air transport (ICAO-TI / IATA-DGR)

14.1 UN number or ID number: Non-dangerous goods

14.2 UN proper shipping name: Non-dangerous goods

14.3 Transport hazard class(es): Non-dangerous goods

14.4 Packing group: Non-dangerous goods

14.5 Environmental hazards: Non-dangerous goods

14.6 Special precautions for user: Non-dangerous goods

14.7 Maritime transport in bulk according to IMO instruments: Non-dangerous goods

# SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU regulations:

• Regulation (EC) No. 1907/2006 - REACH

Regulation (EC) No 1272/2008 - CLP

• Regulation (EC) No. 648/2004 - Detergents regulation

• substances identified as having endocrine disrupting properties in accordance with the criteria set out in Delegated Regulation (EU) 2017/2100 or Regulation (EU) 2018/605

· Agreement concerning the International Carriage of Dangerous Goods by Road (ADR)

International Maritime Dangerous Goods (IMDG) Code

#### Authorisations or restrictions (Regulation (EC) No 1907/2006, Title VII respectively Title VIII): Not applicable.

#### Ingredients according to EC Detergents Regulation 648/2004

non-ionic surfactants polycarboxylates 15 - 30 % < 5 %

The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

#### Seveso - Classification: Not classified

#### Pr.nr: 4459952

#### National regulations

Produktet er omfattet af krav om udarbejdelse af arbejdspladsbrugsanvisning (Arbejdstilsynets bekendtgørelse nr. 292 af 26. april 2001 med senere ændringer om arbejde med stoffer og materialer).

#### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out on the mixture

# **SECTION 16: Other information**

The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract

Version: 02.0

#### **SDS code:** MS1005792

Reason for revision:

This data sheet contains changes from the previous version in section(s):, 2, 3, 4, 6, 8, 16

#### Classification procedure

The classification of the mixture is in general based on calculation methods using substance data, as required by Regulation (EC) No 1272/2008. If for certain classifications data on the mixture is available or for example bridging principles or weight of evidence can be used for classification, this will be indicated in the relevant sections of the Safety Data Sheet. See section 9 for physical chemical properties, section 11 for toxicological information and section 12 for ecological information.

Revision: 2024-12-06

### Abbreviations and acronyms:

- AISE The international Association for Soaps, Detergents and Maintenance Products
- ATE Acute Toxicity Estimate

- DNEL Derived No Effect Limit
  EC50 effective concentration, 50%
  ERC Environmental release categories
  EUH CLP Specific hazard statement
  LC50 Lethal Concentration, 50% / Median Lethal Concentration
- LCS Life cycle stage
   LD50 Lethal Dose, 50% / Median Lethal dose
- NOAEL No observed adverse effect level
- NOEL No observed effect level
- OECD Organisation for Economic Cooperation and Development
   PBT Persistent, Bioaccumulative and Toxic
   PNEC Predicted No Effect Concentration
   PROC Process categories

- REACH number REACH registration number, without supplier specific part
  vPvB very Persistent and very Bioaccumulative
  H302 Harmful if swallowed.

- H319 Causes serious eye irritation.
  H335 May cause respiratory irritation.
  H412 Harmful to aquatic life with long lasting effects.
