

Duni Tray, 1-compartment, 1200ml, 225x175x43mm, CPET

SKU: 13686

The sealable CPET Menu range has a simple design and is made from 100% recycled PET (RPET) from consumer waste, making it the perfect choice for the environment. Available in a variety of sizes and compartment configurations in black or white, the trays can withstand temperatures up to 220 degrees, making them the ideal choice if you prioritize a combination of sustainability and use in high temperature conditions. And if you want to extend shelf life, the trays are even suitable for packing in a protective atmosphere.

- **Trays made from 100% recycled material**
- **Trays are sealed with our unique Duniform concept**
- **Trays are suitable for Modified Atmosphere Packaging (MAP)**
- **Trays with high temperature resistance**
- **Lids with excellent stackability**
