

## Candle, ivory, 6x12 cm, 40 hours

SKU: 4338

Classic ivory pillar candle.

If you want to create ambience there is nothing quite like the subtle light of a candle. Candles are almost the epitome of cosiness; in summer we use them to prolong those warm summer nights, while they (literally) constitute that little light in the dark which most of us long for during a long winter.

Achieve a cosy ambience at the dining table or anywhere you want just by lighting a few candles.
